Ownership ?

author date
committer date
} update contributors

diff date -> update time_between_commits

Ownership need -> author is modifying a file
↳ what is the author ownership %?
↳ map<author, file> || map<file, author>

Be File_changed_by_many-dev factor

FileInfo
creator: String (author)
interactions: map<author String, usize>
ownership-score: map<author String, f64>
commit_time: Vec<u64>

How to handle renamed files in FileSystem ??
